DIRECTOR:

[redacted] 25X1  
is here for a brief visit. He has conferred with our ORE, OO,  
and OCD people.

Attention was again called to interest being displayed  
in Psychological Warfare. Urged our people to get all available  
data together as we will be called upon to furnish the bulk of  
the data. [redacted] has a file accumulated by the former plan-  
ning staff which he will have readily available.) [redacted]  
also are working on P.W. plans. 25X1

New drafts of the old NIA and CIG papers are about  
ready to be submitted for consideration. Our plan is to submit  
copies of the drafts to all the members of the proposed IAC.  
After they have gone over them they will probably be considered  
by a full IAC meeting. Following that, and the redrafting  
necessary as a result of that meeting, they will be submitted  
to the National Security Council.

DIRECTOR:

Currently there is a great deal of interest indicated with regard to psychological warfare activities. The National Security Council has approved going ahead with such a project, but it has not been decided who will have the responsibility. While CIA is not particularly desirous of assuming this additional function, we may be so directed. Even if it is not delegated to us, we shall be called upon to furnish much of the data, and possibly advice as to how such a unit should be operated.

It has been noted that [REDACTED] has been ordered to the Office of the Chief of the Army for duty in the Intelligence Division of the Army General Staff. It is assumed that he is to be Deputy to General Chamberlin. [REDACTED] is going back to the Air Force. 25X1 25X1

There will be a delay with regard to decisions on passage of material between ourselves and [REDACTED] due to inability to get all Chiefs of the various departmental intelligence agencies together at one time. [REDACTED] is in Honolulu, General Chamberlin is busy with the preparation of a report on his recent trip. 25X1

MINUTES OF STAFF MEETING - 30 September 1947

--2

The Director is meeting this evening with members of the President's Air Policy Commission. Asked [redacted] that data in answer to questions previously submitted be furnished the Director today. 25X1

25X1 Directed that [redacted] arrange for a letter to be written, similar to that prepared by Mr. Lay, clearing up the erroneous impression that CIA comes under the Military Establishment. Neither CIA nor the Security Resources Board is under the Military Establishment.

EXECUTIVE DIRECTOR:

Notices have been sent out to 17 employees (mostly from FBIB) that they are being considered for separation from CIA. This is in accordance with the authority contained in the "National Security Act of 1947". The Board will meet next Monday to review these cases and recommend to the Director action which they feel should be taken. Another list will be reviewed in two or three weeks.

(Colonel Edwards here cautioned against mentioning to anyone outside the group then assembled any figures on employees being separated from CIA.)

(The Director expects we will get some agitation as a result of the dismissals--inquiries will no doubt be received from newspaper people and most likely from Congressmen. We want to be sure we have all the true facts at hand before relieving an employee under the Act.)

25X1 [redacted] added that the notices are being sent to the residences to discourage "comparing notes" among employees in one Branch. Individuals concerned will not be called in to appeal unless the evidence should so warrant it.

25X1

[redacted] has resigned and Colonel White is now heading FBIB. 25X1

25X1

25X1

[redacted]  
As a result of personnel action being taken to relieve undesirables from CIA, FBIB is practically out of business. Some relief will be afforded by giving provisional clearance to replacements for those being dismissed. Every effort will be made to continue an efficient operation of FBIB. Theirs is the product of OO most in use.

DIRECTOR:

The first meeting of the National Security Council was held on September 26, 1947. The Council concurred in our suggestion that all current NIA directives remain in effect for the time being. CIA is to submit a list to the Council within sixty days of those specific directives we would like to continue in effect. ICAPS is charged with this project--any ideas in this connection should be submitted to Mr. Edgar. (Mr. Edgar later remarked that ICAPS would prepare a draft and discuss it with appropriate offices.)

Council members were well pleased with the "Review of the World Situation."

General Wright is due back the latter part of the week.

[redacted] has reported for duty to head the Scientific Branch.

Mr. Prescott Childs, who is to succeed Mr. Edgar, was introduced.

DIRECTOR:

We are now known as the Central Intelligence Agency. According to the provisions of the National Security Act of 1947, CIG became CIA the day following the date Mr. Forrestal was sworn in. Mr. Hill, Admiral Souers and the Director have not yet been sworn in -- this may take place today. Until such time as the Director is sworn in, certain provisions of the Act will not be put into effect, for instance, the section authorizing CIA to terminate employment of individuals found undesirable.

LATER  
DECISION -  
16 SEP 48  
date we  
became  
CIA R.A.R.

The Director wishes that we continue using our present letter-head stationery until supply is exhausted, as an economy measure.

Mr. Forrestal is moving to his new offices in the newly-designated National Defense Building (formerly the Pentagon). No decision has as yet been made with regard to other agencies who might be moved to the National Defense Building.

EXECUTIVE DIRECTOR:

[REDACTED] stated that the Monthly Progress Reports of the Branches are being circulated to the other Branch chiefs -- their circulation, however, should be limited to the Branch chiefs only and should not go to the lower levels.

MINUTES OF STAFF MEETING - 23 September 47

--2

A new order is being published which changes certain organization functions. ICAPS will concern itself only with liaison with member agencies. Their former inspection functions are transferred to Inspection & Security, and to A&M insofar as the regular management inspections are concerned.

ICAPS will no longer be responsible for liaison with outside agencies. The latter will rest in the Office of the Executive Director. [redacted] will be the contact man.

25X1

GENERAL COUNSEL:

Mr. Houston reported that we have received our first court decision with regard to our warehouse, which is favorable. The Department of Justice people have carried through very nicely. Although it will take time, we should henceforth experience no difficulty in getting the whole matter cleared up.

00:

25X1

In reply to [redacted] question, [redacted] stated that the Branch Chiefs would initiate the circulation of the Monthly Progress Reports to the other Branch Chiefs.

25X1

(The Director here urged that there be no hesitation to include any constructive recommendations in these reports.)

OCD:

25X1

Captain Olsen stated that Admiral Gingrich had mentioned to one of his people that he would like to see the channel between AEC and CIA be through him -- did not feel it should be through Scientific Branch. He may talk to Director about this. (The Director here stated that receipt and delivery of papers should be through Admiral Gingrich). (The Director agreed with [redacted] remark that this did not affect contacts at working level.)

Reproduction set-up for the benefit of the agencies is working very nicely. We have had several requests from Navy and A-2. We've also done some work for G-2 through Navy requests.

25X1

There was noted in the 19th August issue of the "Deputy Commander's Conference" published weekly in Germany an item to the effect that "coordination and exchange of intelligence material with the British is accomplished through a representative of CIG from Washington". [redacted] was a bit puzzled by this statement -- Col Galloway remarked that he had no knowledge of such a representative. Mention was made that perhaps reference was here made to a Major Artel-(?), a G-2 representative in London. In any event, [redacted] and Col Galloway will endeavor to determine the basis for the above statement and take steps to stop unauthorized individuals from representing CIG in their missions.

DIRECTOR:

The Director was pleased with the reaction of the people at the Naval War College with regard to CIG -- they are on our side.

EXECUTIVE DIRECTOR:

The space planners in Mr. Forrestal's office called on us last week and stated they were thinking of locating CIG in the Pentagon. [redacted] informed them we would favor the move if it were an improvement in the situation existing in "M" and "Q" buildings but that we were not particularly desirous to move the front office only. Their survey indicated that there was not sufficient room to house any of our offices; therefore for the time being CIG will remain in its present buildings. However, an office will be provided in the Pentagon for occasional use of the Director when called in for conferences, etc.

ADVISORY COUNCIL:

25X1

[redacted] who has been chosen to be Chief, Advisory Council, is expected to report on September 10th.

INSPECTION & SECURITY:

Colonel Edwards announced that a drive was being launched to improve the handling of classified documents from a security angle; it has been observed that in many offices the system of logging, etc, has been unsatisfactory. Col Edwards will make available assistance from his office to those who request it. He urged that everyone read and study the new Security Regulations recently distributed.

OO:

25X1

[redacted] called attention to the fact that the State Dept had downgraded one of our installations located in the vicinity of [redacted] from a No. 5 to a No. 1 category for housing and subsistence which means that personnel on duty at that station will suffer a sizeable cut in their overseas allowance. These classifications are based on the size of the city or town; while the station in question is comparatively small, the cost of living is comparable to that of [redacted] due to its proximity to [redacted]. If not successful in their informal efforts with the individual responsible for these classifications to have the decision changed, OO will prepare a memo to State for the DCI's signature submitting a formal request for re-consideration.

25X1

GENERAL COUNSEL:

Mr. Houston discussed briefly latest developments with regard to the warehouse problem.

DIRECTOR:

The Director asked that word be passed around to the effect that we will not take on Reserve Officers for periods of training -- it is not practical in view of the time and money required to make the necessary security checks on these people.

The State Department has agreed to secure from Foreign Service Posts periodical reports on the implementation of NIA Directives affecting field operations. These reports will be passed on to us with comments of those concerned.

A joint letter from the Secretary of Navy and the Secretary of War has been received asking that CIG study the National Security Act of 1947 to determine what steps will be necessary to implement the provisions of the law within this agency. [redacted] and Mr. Houston are to follow through.)

25X1

Latest information is that President Truman will make all nominations to the National Security Council this week. There is some talk of our going to the Pentagon Building. (Comments were made that such a move would save a large sum of money now being expended for guards, as well as being advantageous from the view point of having the whole organization in one location.)

MINUTES OF STAFF MEETING - 19 August 1947

--2

00:

25X1 25X1  
[redacted] mentioned that some time ago [redacted]  
[redacted] of the [redacted] had approached the proposition that we assist  
in the Translation of Russian newspapers -- that we might do it one  
month and they the next, etc -- it appeared odd, however, that the  
[redacted] who contend they are short of Russian translators, have sent  
over to 00 a replacement who is a Russian speaking officer. We can  
always use him to good advantage, though, as it is difficult to get  
Russian linguists who will pass the security check.

25X1

INSPECTION & SECURITY:

In reply to the Director's question, Colonel Edwards stated  
that the Security Regulations would be out this week.

OCD:

Captain Olsen remarked that the Inter-departmental Reading  
Panel is ready to go into operation as soon as the members from the  
departments report in.

A member of the Scientific Branch who is presently on duty  
at Camp Detrich telephoned last week advising that we hold up the  
study on Biological warfare because he had uncovered a great deal of  
material which would assist in preparing a better report. The entire  
program will go out this week.

ICAPS:

25X1  
[redacted] feels that something should be done to  
assure that a sound Psychological Warfare program during peace time  
be mapped out. It might be in the form of an ad hoc Committee.  
Presently, SWNCC is working out the duties and responsibilities of  
such an organization for war time application, but [redacted]

25X1

feels there is a need for an activity of this kind right now. The  
Director stated he would call the matter to the attention of Admiral  
Leahy this morning.

DIRECTOR:

Rear Admiral John E. Gingrich has been appointed director of the Intelligence Office of the Atomic Energy Commission. Concurrently Mr. Lillenthal has nominated Admiral Gingrich to be a permanent member of the Intelligence Advisory Board. (Captain Olsen here asked if we should start sending him our papers -- it was decided that we should wait until Admiral Gingrich assumes his duties some time within the next two weeks. Similarly, we should wait a while before disseminating information to the Secretary of Defense staff. A check will have to be made to insure that all concerned meet security standards.)

General Wright is leaving on a trip this week. The Director will be away for about a week, leaving some time next week.

25X1  
25X1

It appears we will be successful in getting a Chief for our Scientific Branch. [redacted] who has been on leave from the [redacted] doing research work for the Navy, has been highly recommended by JRDB. We will know in a few days whether or not he will accept our offer.

In line with the Director's desires, with which Admiral Leahy and Mr. Forrestal are in complete accord, that CIG should stay out of the news, it is gratifying to know that top ranking commentators and reporters are also in agreement with this view. Again the Director reiterated the policy that no publicity be given out. Anyone being approached for a story should refer the individual to the Director's Office. Relative to the articles which have appeared in newspapers recently on FBIB, the Director commented that we cannot stop anyone from writing these stories -- the point he had in mind was that no information be given out to anyone inquiring about our operations.

OO:

25X1

[redacted] stated that General Sibert had not been successful in negotiating with General MacArthur's headquarters for the installation of a radio station at [redacted]. The Director remarked that we could not justify tying up the large amount of money required to establish this project which we would undoubtedly have to give up subsequent to [redacted]. There is some indication that the latter will be expedited for political reasons.

25X1

25X1

OCD:

Captain Olsen stated that OCD has been quite successful in its negotiations with the Departments to increase the dissemination of various items, particularly cables. The Navy, however, wants a formal written request from us on any further dissemination of specific cables. The Director may get a call from the Navy on this subject.

There has been an increase of 15% in requirements directives, attributable to additional requests from ORE and the Navy Department. There has been added two or three expeditors who maintain liaison with the Departments which has been most helpful in increasing service.

Shortage of personnel in OCD has necessitated considerable overtime in that Branch. Captain Olsen was told to take up this matter with [redacted]

DIRECTOR:

Attention was called to several instances where routing slips have been improperly classified in relation to attached papers -- and in some cases no classification whatsoever has been shown. It is imperative that routing slips be properly classified to prevent a break in security.

Until such time as the National Security Council becomes operational, the NIA will continue to operate in its present role. In all probability the IAB will be carried over as at present even after the National Security Council assumes its functions under the Unification Bill.

It was again emphasized that provisional clearances will not be given on individuals we wish to hire. Exception to this policy will be made only in very special cases.

MINUTES OF STAFF MEETING

29 July 1947

9:00 AM

PRESENT:

Director	- Rear Admiral Hillenkoetter	
Deputy Director	- Brig General E. K. Wright	
Executive Director	[redacted]	25X1
ICAPS	- Mr. Donald Edgar	
OCD	- [redacted]	25X1
OO	- [redacted]	
ORE	- [redacted]	
OSO	- Colonel Don Galloway	
Inspection & Security	- Colonel S. Edwards	
Administration & Management	- [redacted]	25X1
Secretariat NIA	- [redacted]	25X1
General Counsel	- Mr. L. R. Houston	
Advisory Council	- [redacted]	25X1
Secretary to the Director	- [redacted]	25X1

\* \* \*

DIRECTOR:

The Director opened the meeting by stating that the new legislation on CIG provides for authority to fire undesirable employees. He warned against being too hasty in taking measures to remove employees. We must be absolutely positive of facts as basis leading to belief that the employee is subversive. [redacted] is preparing a paper, which should be published today, establishing a Board to review such removal actions and prescribing the procedure to be followed. The Director will personally make final decision on all cases.

25X1

Our space requirements have been discussed with General Fleming who will do all he can to assist us. The Railroad Retirement Building has been promised to the Department of Public Health. Changes in location of several Government agencies are expected as a result of recent Congressional legislation.

MINUTES OF STAFF MEETING - 29 July 1947

--2

25X1  
25X1

An outlay of [redacted] would be required to set up the radio station at [redacted]. General Sibert was informed that in view of the unlikelihood that [redacted] would [redacted] permit us to continue the operation of the station [redacted] [redacted] it is impractical to invest that much money in the project.

25X1  
25X1

25X1

The Admiral directed that proselytizing of employees from other agencies be stopped. There has been an oral agreement made among CIG, ONI, WD Intelligence, and State that each will refrain from trying to get personnel from the other agencies. Any deviation from this policy will only lead to trouble later.

Announcement was made on a briefing to be given General Bradley prior to his departure for Europe. Emphasis was placed on Director's desire to have this presentation the best possible. (Capt McCollum here stated that [redacted] would personally preside at this briefing -- he is working on agenda -- there will be six people participating, and it is planned to have [redacted] present to answer any questions on USSR which General Bradley may ask.)

25X1  
25X1

Individuals applying for positions with CIG should be given reply more expeditiously regarding the possibility of employment -- especially those who will be given a negative answer. (General Wright here stated that we might now consider, in view of recently enacted legislation, the preparation of a form letter which could be sent out to applicants who are acceptable for a particular job informing them that their final acceptance will have to be postponed pending completion of clearance.)

The Director commented briefly on the bill establishing CIG as the Central Intelligence Agency. [redacted] will prepare instructions on change of nomenclature.) The Director wishes that we continue using our present letterheads, making appropriate changes if so desired.

25X1

DEPUTY DIRECTOR:

It has recently been called to his attention that on several occasions some of our people have been in contact with newspaper people to obtain publicity in furthering CIG aims. He urged the necessity for keeping CIG out of the public eye. We should all stick to the policy of absolutely no contacts with publicity people except by the Director himself.

MINUTES OF STAFF MEETING - 29 July 1947

--3

Mentioned one instance where subordinates have disregarded decisions which had been made by top people and had gone along carrying out their own ideas. While it is perfectly proper, and desirable, that views of an individual be brought to the attention of his superior, once a decision has been made it is imperative that strict adherence to final decision be followed, and any personal ideas to the contrary be completely cast aside. (The particular incident referred to concerned an "identification card" used as a pass by certain of our field personnel. Col Edwards is to survey our "pass" situation, and present his conclusions to the Director).

OCD:

25X1 [redacted] is forwarding a paper regarding a proposal for a "Career Management System" in CIG which would be particularly beneficial to the junior professional people. The system provides for a rotation of field people to headquarters, and vice versa.

ICAPS:

25X1 [redacted] is leaving shortly. His successor will be [redacted]

25X1 Mr. Edgar discussed the revision of the JJC charter.

A&M:

Agreement has been signed for the taking over of the Map Service from the State Department. Personnel will for a while remain physically at their present location but they are definitely a part of CIG.

EXECUTIVE DIRECTOR:

Colonel Barton has been transferred to A&M. [redacted] is now working for [redacted]

DIRECTOR:

Legislation for CIG is still being debated upon. The Senate will have a conference with the House to discuss the various points of controversy. It is the Director's present impression that the provision permitting a military director will be removed.

The Secretary of State is very interested in the Greek situation at this time and wants all data coming to our attention furnished him. The Director therefore urged everyone to get such data to the Secretary promptly.

Announced the return of General Wright and asked him to report on his trip.

MINUTES OF STAFF MEETING - 22 July 1947

DEPUTY DIRECTOR:

The General was extremely pleased with the operations of FBIS office at [ ] and was enthused with the progress being made at [ ]. Everyone is doing a good job and all appear greatly interested in their work. He feels that the [ ] office will be the most successful FBIS undertaking in CIG.

25X1

It was found that few people knew just wherein they fit in the CIG pattern so on several occasions the General gave a brief explanation of the structure of our organization in relation to their positions. It might be well to conduct such an orientation here in Washington for the benefit of those employees who have joined CIG during our period of rapid expansion which did not permit sufficient briefing of their part in the organization. (The General agreed with the statement here made by [ ] that the new charts to be published shortly would be of some assistance in this regard but there will still be the necessity for someone to explain the charts.)

25X1

The project at [ ] is most interesting. The people at the [ ] are collecting a large number of books and pamphlets from various countries, including China, Russia and India, which probably would be impossible for anyone else to obtain. It is not known how much of this material is of intelligence value. [ ] the man in charge, is doing an excellent job which must be confined to supervision mainly as he is the only one there. Consequently, just as soon as we can, we should get two people out there. One to review the Chinese data and another, the Russian material. Also, there is need for improving communications at that location. [ ] [ ] has already been apprised of this situation.)

25X1

25X1

It appears desirable to have this office report to the Ass't Director rather than having it under the jurisdiction of one individual.

The General will elaborate on specific points with individual Ass't Directors concerned.

The General concluded by cautioning all concerned against promoting employees too rapidly. While he was in complete favor with rewarding deserving employees, it must also be remembered that we should be at all times in a position to back up such promotions, particularly against any inquiry on the part of Civil Service and even Congressmen. In some cases it might be difficult to substantiate the promotion to top Civil Service salary a man who has been in Government service only a relatively short period of time.

MINUTES OF STAFF MEETING

15 July 1947

9:00 AM

DIRECTOR

1. (a) The Director has been giving a great deal of thought to the preparation, periodically, of some form of Intelligence Summary on foreign countries which would attempt to forecast the intentions of those countries. It would be an estimate of the situation based on political trends, economic stability, and military power. He has not definitely arrived at the form in which such a paper could best be presented, and asked those present to submit any ideas they had on the subject to the Ass't Director, ORE. (The necessity for such a service was further emphasized as a result of questionings at the recent Senate hearings. General Vandenberg was asked if the Pearl Harbor incident would have been prevented had there been a Central Intelligence Agency in existence at that time. The General's reply was in the affirmative.) A detailed discussion of this subject followed, several proposals being advanced. [redacted] recommended that a world-wide summary of the situation be prepared, say, monthly which could be amended whenever the status changed -- it should be a very brief statement of conditions.

25X1

(b) Captain McCollum is very much in favor with the general idea. He is setting up a unit called "Global Survey Group" for this purpose. One of his important projects in progress is a study on the Russian situation, the completion of which is scheduled for September 1st.

(c) The Director stated that these studies should be concerned initially with those countries in which we are interested at the moment, ie, (1) Russia and the satellites, (2) How will the latter affect Greece? (3) What is happening in China?, etc. -- in other words, endeavor to estimate immediate intentions of foreign powers. Complete accuracy of prognostications is not paramount.

2. The House Committee has approved proposed legislation permitting our organization to continue its present operations. The Bill is to be introduced on the floor today or tomorrow and there is every indication that it will pass.

OCD - [redacted]

1. (a) Requests for information (approximately 30 a week) received from non-government agencies present the following problems:

1. Need for clarification on policy for foreign liaison.
2. Public relations policy.
3. Security problems.

(b) The main question appears to be the channeling of replies to such requests; examples cited were: (1) Letter from Guatemala, (2) Another from a lawyer in D.C. (3) and one from Mr. Coon, Post correspondent.

(c) Director's decisions:

1. No information should be given out to non-government agencies. If request comes from foreign statesman, reply should state that communication has been referred to State Department. (If State Dept in turn asks us for the data, we shall furnish it to them -- what they do with it then is no concern of ours.)
2. Similarly, if a request is from a Naval Attaché or Military Attaché, he should be referred to the War and Navy Departments respectively.
3. If in the opinion of OCD uncertainty of proper action exists, particularly with regard to queries from high-level civilians, they should be routed to the Office of the Director.
4. Caution is to be taken not to unnecessarily disclose components of CIG in replying to inquiries, i.e., letters addressed to OCD direct by an acquaintance for instance should be replied by them, and letters addressed to DCI, although replies would be prepared in OCD or some other unit, should be made for the signature of the office of DCI.
5. Definitely no Public Relations staff is to be established.
6. Exceptions: Distribution of FBIB data to newspapers, etc.

(d) Colonel Edwards stated that a statement on foreign liaison policy is ready for publication. Exception to general policy is with regard to the British on duty with CIG insofar as documents and other information which they normally would have access to.

EXECUTIVE FOR INSPECTION & SECURITY - COLONEL EDWARDS

1. (a) Colonel Edwards stated that he was most anxious to gain the confidence of the various branches, yet maintain adequate safeguards.

(b) The fact that of a number of people under investigation a certain percentage is disqualified has the tendency to throw suspicion on the latter of disloyalty to the U. S. government. This is not generally so, as many of the rejected individuals have either made false statements on their P.H.S. or have withheld information about their character which makes them undesirable (such as jail sentences, etc.).

(c) By the same token, other branches should not look down on another branch which has a high percentage of rejections.

2. Captain McCollum then asked clarification of a statement made by Colonel Edwards. The latter explained that his check had no bearing on the technical qualifications of an individual to do a certain job. Capt McCollum was told by the Director and the Executive Director that there has been no change in the present policy regarding the placing of personnel at various levels. Certain jobs must be filled by candidates approved by the Director. By all means, the recommendations of the Ass't Directors will continue to be given due consideration.

CAPTAIN McCOLLUM

Captain McCollum made the suggestion that it may be advisable to offer CIG's assistance in the forthcoming "Inter-American Conference" to be held in Rio, around August 15, by making available one of our representatives.

25X1 [redacted] now working in ORE, was mentioned as a likely candidate.

25X1

The Director stated that the list of members to attend had not been completed. So far, he knew that Mr. Truman and General Marshall were to attend. He added, Dr. Matthews is to let us know if we can be of any assistance.

25X1

[redacted]  
OCD has now opened their "CP" in the South Building.

25X1 [redacted] stated that on several occasions some of his people have commented on the inconvenience of our present working hours--he wondered if the new schedule was merely a summer arrangement.

25X1 [redacted] remarked that a vote had been taken prior to inaugurating the new schedule - 600 voted for, and 100 against - that the Bureau of the Budget had concurred in the new schedule with the understanding that it would remain in effect for one year.)

The Director stated he did not wish to impose rigid adherence to this schedule - he would approve any change which appeared more practical - that Asst Directors could prescribe the working hours in their own shop - it is not imperative to have all the services on the same schedule. There should be no difficulty in obtaining approval by the Bureau of the Budget if a change is desirable.

MINUTES OF STAFF MEETING

July 8, 1947

9:00 AM

DIRECTOR

The Director opened the meeting by stating that General Wright was away on a trip.

Senator Guernsey introduced the Unification Bill in the Senate yesterday. The Director added that we should be statutorily fixed by the end of the month -- one of the several bills under consideration is bound to be passed.

We have received a paper from the Chairman, Atomic Energy Commission regarding the establishment of an intelligence unit within the Commission, similar to that in the War, Navy & State Departments. Proposal will have to get approval of NIA. [redacted]

[redacted] to discuss with Director.

25X1

25X1 [redacted]

25X1 [redacted] stated he was leaving CIG, and was returning to the Navy Department. Expressed his best wishes to all - how much he had enjoyed working with the organization - and offered any assistance he may give in his new assignment.

GENERAL SIBERT

General Sibert is still experiencing some difficulty in getting CAF-3's and 4's.

25X1 [redacted] here remarked that the ban on procurement is being lifted permitting the employment of 100 people a month. Security clearance is also being speeded up.)

Nine people were lost in the transfer of the [redacted] Section; Consequently, it will be some time before they will be in full operation.

25X1

P & A has recommended several sites for monitoring stations.

General Sibert expressed concern over a memorandum concerning "Reference Branch" which had been issued without consulting OO. (Captain McCollum and [redacted] joined in this view). While there are no major disagreements in this particular paper it is felt that Asst Directors concerned should be given an opportunity to comment on actions of this kind. Discussion with regard to the "Contacts Control Register" was the main point mentioned.

General Sibert announced that he would be leaving for [ ] on 13 July - will be happy to take up matters for other services at the same time. He, also, remarked on the inability of obtaining acceptable personnel in the low grades particularly.

25X1

Capt McCollum reiterated previous comments on personnel. He mentioned that he is still having difficulty in getting the Scientific Branch under way - the reason is that they are unable to get the proper top people to head this unit - he is working closely with JRDB on this matter. The trend has been to hold off filling the lower grades until the top men have been chosen.

[ ] stated he is doing everything he can to recruit CAF-3's and CAF-4's consistent with the personnel ceiling which has been imposed. [ ] added that he has received complaints on the operation of the Motor Pool. All but four cars have been assigned to specific officers. A survey on the latter revealed that an average of 10 miles was registered per day which would seem to indicate that the Asst Directors might be able to release their cars more freely thereby making them available to other officers when not in use. General Sibert then remarked that it was difficult to forecast the use of cars, especially in those offices located away by themselves. It usually happens that as soon as a car is released, necessity arises for them to use it. The Director concluded with the remark that something would have to be worked out in this connection.

STAFF MEETING - Tuesday - 1 July 1947

--1

The Director stated that he had been on the Hill all day Friday, June 27, and part of Saturday, the 28th, in connection with hearings before the House Expenditures Committee. CIG is still in business and will stay in business. There is some question as to whether we will continue exclusively in the business, however. We have a 70-30 chance at the moment - and this condition may change any time. The NIA members at the meeting last Thursday backed us up.

The Deputy Director mentioned that rumors may have come to the attention of those present to the effect that the AEC was getting in shape their own intelligence set-up on a large scale. This step is necessary in order that AEC may be in a position to evaluate themselves a large volume of data on atomic energy. Some may have been wondering the reason for Admiral Souers' several visits recently. The Admiral is working out a plan to set up a nucleus organization and is working with us with a view to coordinate procedures so that CIG may be furnished all pertinent data. The AEC unit will have no effect on ORE. (Latter questions raised by Capt McCollum).

25X1

[redacted] commented briefly on his trip to [redacted] recently. Talks were given by [redacted]

25X1  
25X1

25X1

[redacted] The meeting consisted mainly of discussions - exchange of views and mutual problems of N/A's. Minutes will be furnished us in due time. There is growing concern on the part of N/A's in European countries, particularly in the Balkans, with regard to security. They fear the possibility of safes being broken into, offices wired, etc. Steps and measures are being taken to insure against these possibilities. The N/A to Russia stated that he had not seen his opposite for six months. The Russians have clamped down on all information. Impossible to get anything from them.

25X1

[redacted] OCD, brought up the problem, which appears to be general, of inability to secure personnel in the CAF-3 and 4 category. The Director remarked that this condition was prevalent in all Washington agencies. [redacted] added that he lost several good professional prospects due to the long time required to clear these people. In the meantime they accepted other positions - one accepted a commission in the Navy. A survey is being conducted to consider the advisability of preparing a "Daily Summary of World's Events". (Admiral Inglis had previously expressed the wish for the Navy to be furnished such a summary). It was thought best to contact the other interested agencies for their reaction prior to going ahead with such a project. Another survey is in process to determine the adequacy of overt coverage all over the world.

## MEMORANDUM FOR GENERAL VANDENBERG.

1. Pursuant to your instructions, it has been arranged for Admiral Hillenkoetter to visit each of our Offices and Staff Sections to meet the people concerned and to be briefed by them as to their activities. A schedule of this program is attached.

2. In your absence and in that of General Wright, I arranged for the Admiral to attend the 10 o'clock meeting today, Thursday 10 April, of the Policy Council, JRDB, so that he could meet the other members. He already knew Admiral Sherman, Admiral Wright, and Captain Thach.

3. I have the following suggestions to offer:

a. That you take Admiral Hillenkoetter to call on Admiral Leahy, Secretary Patterson, and Acting Secretary Acheson and that you go with him to call on General Marshall when he returns. (The Admiral has seen Mr. Forrestal.)

b. Also I think that the Admiral should meet the members of the IAB including Mr. J. Edgar Hoover. This could be done by calling an IAB meeting, including Mr. Hoover, with nothing on the Agenda other than an informal get together and discussion, or you might take the Admiral to call on the members of the IAB; however, the former seems preferable to me. (The Admiral has already seen Admiral Inglis but he is the only IAB member he has seen.)

c. Also believe it would be a good idea for you to introduce the Admiral as time goes on to your friends in Congress and in the Senate, and to any other people he should meet.

d. I know nothing of the plans concerning the date of official turnover by you to the Admiral, however, suggest the following considerations:

1. Believe the date should come after you have completed appearances before Congressional Committees on legislation--both budget and otherwise.

2. Also the question arises as to what is the Admiral's status pending the turnover. The cable order from the Navy merely states that he is to report here for duty as the Director. However, pending his actual taking over, you might consider a press release stating that he is here and will take over from you at some date in the future. Of course, the next question is when the official announcement of your change in occupation is to be made and the two might well be simultaneous. This last is a little over my head but just wanted to suggest the matter to you in case you wish to do anything about it.
